

The 5th International Conference on Tropical Biology

Multimedia Guidelines for Online Presenters

Please prepare your video presentation according to the following requirements:

1. Video Duration

The video presentation should be 5–7 minutes in length.

2. Video Orientation and Aspect Ratio

The video should be in landscape orientation with a 16:9 widescreen aspect ratio.

3. Video Resolution and Frame Rate

The video should have a resolution of 1920 × 1080 pixels (Full HD/1080p)

4. Video Format

The video should be submitted in MP4 (.mp4) format.

5. Audio Quality

Please ensure that the narration and/or presentation audio is clear, audible, and free from excessive background noise. If possible, use an external microphone or headset for better audio quality.

6. Presentation Content

The video should clearly present the paper title, authors, affiliation, and the main contents of the research, including the objectives, methodology, key results, and conclusions. You can find the presentation template in this link

7. File Naming

Please name your video file according to the following format:

Paper ID_Corresponding Author Name_First Three Words of the Title.mp4

Example:

5ICTB-AUT-0096_John Smith_SOIL PHOSPHATE AVAILABILITY.mp4

8. Final Check

Before submission, please ensure that the video:

- is within the 5–7 minute duration;
- uses 16:9 landscape format;
- at least 1280 × 720 resolution;
- is in MP4 format;

- has clear and audible audio; and
- follows the required file naming convention.
